PROFILE

Detail-oriented and passionate Front-End and React.Js Developer with a Bachelor's in Computer Systems Engineering. Skilled in building responsive, user-friendly interfaces with modern web technologies like HTML, CSS, JavaScript, Tailwind, Bootstrap, and React.js. Strong understanding of databases, including SQL and MySQL. Proven ability to work in collaborative environments and deliver results in fast-paced settings.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), CSS3, Bootstrap, Tailwind CSS, HTML5

Database: MongoDB, SQL, MySQL, and MS Access

Backend: Node.js, RESTful API development and Authentication (JWT, OAuth)

Tools: Git, GitHub, MS Office Suite

PROJECTS

- **Quotes Generator App**
  Built a dynamic web application that fetches and displays inspirational quotes using a public API. Users can generate new quotes at the click of a button. The app features a clean, responsive UI and provides a smooth user experience. Developed using React.js, JavaScript, and CSS, with efficient API integration for real-time quote generation.
- **Weather App**
  Developed a responsive web application that displays real-time weather information for any city using a public weather API (e.g., OpenWeatherMap). Users can search for a city to view its current temperature, weather conditions, humidity, and more. Built using React.js, JavaScript, and CSS, with a focus on clean UI, API integration, and error handling for invalid inputs or unavailable data.
- **E-Commerce Website**
  Created a responsive e-commerce website using HTML, CSS, JavaScript, and Bootstrap. Features include product listing pages, product detail views, and a basic add-to-cart functionality using JavaScript. Focused on modern UI design, mobile responsiveness, and enhancing user interaction without any frameworks or backend integration.

EXPERIENCE

Geeks Consultancy (Pvt.) Ltd.

MERN Stack Trainee (Jan 2025 – Mar 2025)

Key Contributions:
- Developed responsive admin dashboard and booking system using React.js, Node.js, and MongoDB.
- Built REST APIs for e-commerce features like product listing and user authentication.
- Integrated real-time chat using Socket.io and implemented secure JWT-based login.
- Collaborated on task management portal with dashboards and activity logs.
- Improved code performance and followed Git-based version control practices.

Zetsol Software Company – Hyderabad

Intern (Jun 2024 – Sept 2024)

- Developed responsive UI components using React.js, Bootstrap, HTML5, and CSS3
- Integrated RESTful APIs using Axios and managed routing with React Router
- Assisted in backend development with Node.js and Express.js
- Collaborated in a team environment to deliver key features for the Sehat Kahani Web Application.

EDUCATION

Bachelor of Computer System Engineering

Mehran University of Engineering & Technology, Jamshoro.   Dec 2020 -Dec 2024

CERTIFICATIONS

Web Development – NFT Program | Advanced Python Programming – NAVTTC, MUET

Office Automation – APEX Computers | Entrepreneurship – IBA Karachi | Akhuwat Youth Leadership Camp – Lahore
